

Become a Masterspec Partner

Join NZ's most collaborative cloud-based construction specification writing platform.
Provide specifiers with a high-quality product specification written by Masterspec.

The Right Place at the Right Time

Masterspec has NZ's largest library of construction information which includes eight different libraries. We are the market leader in specification information. Joining Masterspec means your product is available to specifiers while they are making key project decisions.

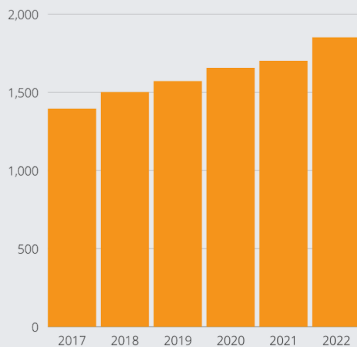

Valuable Metrics at Your Fingertips

Want to know how many times you've been specified, what products and how you compare to your industry category? We can show you that. As a partner with Masterspec, we provide you with a range of statistics and reporting so you can keep an eye on your ROI.

Accessible Information

Whether it is your product technical sheets or your teams expert knowledge, specifiers connect with you all on one platform. Masterspec's helps you provide up-to-date, useful and accurate technical information to specifiers.

Ask us more about mDocs, miproducts and Work Section Support.

Masterspec reaches over 1850 design and engineering practices nationwide.

Since its inception in 1995, Masterspec continues to provide valuable, reliable construction information to the industry. NZ's top 30 practices use the intuitive cloud-based platform to create everything from kitchen renovations, all the way through to larger buildings such as Commercial Bay in Auckland.

Want to join Masterspec? Start with a branded work section.

A branded work section is a legal document we host in our library. This is what construction professionals specify. Our team will create a specification for you.

Example of branded work section: Metal Roofing, Plywood Cladding, Ceramic Tiling.

THE COST \$8000 + GST for your first branded work section.

THE TIMING 2-6 months to get you up and running.

THE RESOURCE Your sales, marketing, and technical teams will require regular involvement to ensure your business gains a strong ROI.
